1st Plenary meeting of ACYM

The regional and global networking

Alain Coheur : co-ordinator

The starting point

- Despite social security being a fundamental human right:
- > 80% of the population in sub-Saharian Africa and some parts of Asia live without social protection
- ➤ 100 million persons enter every year in vicious circle of ill health and poverty due to health care costs
- People most exposed are informal economy workers and rural populations

Development of partnerships

Strategic Alliance and Coordination Network

- 1. International Alliance for the extension of Social Protection
- 2. Western and Central Africa Network: "La Concertation
- 3. Asia Micro-Insurance Network: AMIN
- 4. Latin America Network: ACYM

The network is to be considered as the most appropriate instrument to address the weaknesses that currently affect the various initiatives taken within the whole world and help them achieving a wider and sustainable impact, especially as regards social protection in health.

Strategies of the network

- Strengthening synergies
- Highlighting international challenges and stakes
- Strengthening capacities and advocacy
- Sharing information and experiences
- Disseminating knowledge and achievements

Common vision, values and principles for for the Extension of Social Protection

- To unite all the major international organizations or networks (cooperative and mutual) active in the extension of social protection, which share the same vision, values and principles in this field.
- Each network is based on a founding document that has emerged out of international and regional contexts.
 - => The Geneva Consensus : International
 - => A global Strategy for a common action : Latin America countries
 - => The Abidjan Platform : African countries
 - => Joining hands : from local initiative towards national solidarity systems : Asian countries

International Alliance for the Extension of Social Protection

The Alliance aims to bring into the agenda of international institutions the role of extension of social protection in poverty reduction strategies, promotion of decent work and improved access to health care.

The « Consensus Geneva » : Shares principles and values

- SS is a fundamental and universal human right, it's a global public good
- SS is built on solidarity mechanisms
- SS is a core instrument of redistribution for reducing inequalities
- SS must be managed with transparency in a framework of good governance and financial viability and seek to extend the fiscal space available.
- The values held by our organizations are : fairness, social justice, solidarity, the absence of exclusion and discrimination, non for-profit, the participation and empowerment of the populations democracy and responsibility.

International Alliance for the Extension of Social Protection

" Access to social security and social protection is a fundamental human right "

International Alliance for the extension of social protection

The International Alliance is a network that includes the International Labour Organisation (ILO), the International Social Security Association and the most important international federations and organizations representing the cooperative and mutual insurance sector. They are all active in the area of extending social protection in the world and share a common vision, values and principles. Altogether they give voice to the interest of more than one billion members in more than 180 countries.

Bienvenue sur le site de la Concertation

"Une approche innovatrice pour créer un mécanisme d'échanges de connaissances et de compétences "

La Concertation entre les acteurs du développement des mutuelles de santé en Afrique est un réseau de partage d'expériences, de compétences et d'informations sur le développement des mutuelles de santé en Afrique de l'Ouest et du Centre.

Les actions de la Concertation touchent une gamme variée d'acteurs impliqués dans le développement des mutuelles de santé et autres mécanismes innovants permettant d'accroître l'accès aux soins de santé.

>> Dernier courrier Nº 17 de la Concertation Les réseaux des mutuelles de santé dans l'extension de la protection sociale et la lutte contre la pauvreté

The Coordination network in Asia

ACTIONS

- 1) Develop a communication and information strategy on microinsurance mechanisms as well as on the various organizations involved in the promotion, development and monitoring of microinsurance activities.
- 2) Interact with all organizations (public departments, local, national and international actors) that are interested to learn more about the role played by micro-insurance or to enter into new partnership agreements with micro-insurance operators.
- 3) Create a permanent database facilitating the development of methodological tools and training materials contributing to the further development of micro-insurance.

- Linkages with the state
- Role of MHI in attaining the MDGs
- Terminology

'Micro-insurance is not only a financial product but also an empowerment instrument and a social nclusion mechanism'

An innovation supported by the ILO/STEP program Mini

The Coordination network in Latin America

Objectives

- Identifying and documenting the various initiatives taken both by the public and private sector contributing to the extension of social protection;
- Intensify the documentation process of various on-going mutual and cooperative insurance initiatives, innovations and achievements;
- Building additional knowledge through active partnerships developed with various organizations involved in mutual and co-operative activities;
- Developing adapted tools and training manuals in order to strengthen the technical capacities of health mutual and co-operative practitioners.
- Set up an efficient mechanism allowing for the regular sharing of information and experience among practitioners from different countries;
